The company will implement this fee based on the arrangement with a specific Correctional Institution. This fee will be charged only once per billing period regardless of the number of calls. The fee will not apply in any billing period in which no collect calls are billed via the Customer's local exchange carrier. This fee does not apply to prepaid services paid for by commercial credit card, check, money order or wire, or for services billed directly to the Customer by the Company.

This charge applies to automated calls placed by inmates of correctional facilities when such calls are provided through the Company's own processing equipment. (N)

3.7.1 Description

Institutional Prepaid Service (Debit) allows inmates to set up prepaid accounts for outbound calling. Prepaid calls are originated when the inmate enters their unique PIN and destination number.

With the assistance of the institution, the Company will set up a Prepaid Account for calls placed from the institution. Funds in the Prepaid Account may only be used for payment of calls placed by inmates. The Company's system informs the inmate of the Available Usage Balance remaining in the Prepaid Account upon access to place a call, and prompts the inmate Customer to place a call by entering the destination telephone number.

Institutional Prepaid Service calls are not distance sensitive. Call timing is rounded up to the nearest one (1) minute increment after the initial minimum period of one (1) minute and therefore the Available Usage Balance is decremented in full minute increments.

Per call and usage for each call placed is deducted from the Available Usage Balance in the Inmate's Prepaid Account on a real time basis as the call progresses.

While a call is in progress and the Available Usage Balance reaches one minute, a voice prompt will announce to the inmate that one minute of time remains on their Prepaid Account and that the call will be cut off after that time.

Call duration maximum is fifteen (15) minutes.

3.2 Institutional Prepaid Collect Service

3.2.1 Description

Institutional Prepaid Collect Service allows recipients of collect calls from inmate facilities to set up a prepaid account with the Company from which such calls are decremented.

Inmates place a collect call through the standard dialing pattern to a specific telephone number (station to station). The Subscriber accepts the collect call and the charges for that call are deducted from the Subscriber's Prepaid Account. Funds in this Prepaid Account may only be used for payment of calls received by Subscribers to their telephone number specified to the Company when the Prepaid Account is established.

Institutional Prepaid Collect Service calls are not distance sensitive. Call timing is rounded up to the nearest one (1) minute increment after the initial minimum period of one (1) minute and therefore the Available Usage Balance is decremented in full minute increments.

Per call and usage for each call placed is deducted from the Available Usage Balance in the Inmate's Prepaid Account. Customers may obtain the current Available Usage Balance, last payment made and last payment date by calling the Company's Customer Service toll free number twenty-four (24) hours a day, seven (7) days a week.

Call duration maximum is fifteen (15) minutes.

3.5 Miscellaneous Rates and Charges (T)

3.5.1 Public Telephone Surcharge (T)

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard price list usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access The Company service and is unrelated to the Company service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the “#” symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

The company will implement this fee based on the arrangement with a specific Correctional Institution. This fee will be charged only once per billing period regardless of the number of calls. The fee will not apply in any billing period in which no collect calls are billed via the Customer’s local exchange carrier. 3.8 Institutional Prepaid Service

Institutional Prepaid Service allows inmates to set up prepaid accounts for outbound calling. Prepaid calls are originated when the inmate enters their unique PIN and destination number. The institution has the option of enabling a function requiring positive call acceptance on each call placed via Institutional Prepaid Service.

With the assistance of the institution, the company will set up a Prepaid Account for calls placed from the institution. Funds in the Prepaid Account may only be used for payment of calls placed by inmates. The Company's system informs the inmate of the Available Usage Balance remaining in the Prepaid Account upon access to place a call, and prompts the inmate Customer to place a call by entering the destination telephone number.

Institutional Prepaid Service calls are not distance sensitive. Call timing is rounded up to the nearest one (1) minute increment after the initial minimum period of one (1) minute and therefore the Available Usage Balance is decremented in full minute increments.

3.9.1 Pay Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard Tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access The Company service and is unrelated to the Company service accessed from the pay telephone.

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

Per Call Charge: \$0.50

3.9.2 Billing Cost Recovery Fee

In order to partially offset increased expenses associated with billing calls via local exchange carriers, an undiscountable billing cost recovery fee may apply each billing period in which local or long distance collect calls are billed through a Customer's local exchange carrier. The company will implement this fee based on the arrangement with a specific Correctional Institution. This fee will be charged only once per billing period regardless of the number of calls. The fee will not apply in any billing period in which no collect calls are billed via the Customer's local exchange carrier. This fee does not apply to prepaid services paid for by commercial credit card, check, money order or wire, or for services billed directly to the Customer by the Company.

Billing Cost Recovery Fee, per month where applicable \$3.49
