All schools in the Revere Public School District in Revere, MA are connected with dark fiber at 10 Gbps.

All schools share 2 x 500 Mbps fiber Internet connections. All schools in the District are 100% fiber connected.

We are also connected at 1 Gbps to all other municipal buildings in the city.

To whom it may concern,

I would like to submit a correction to the school fiber map for four school districts in Mercer County, Ohio. The map indicates that the following districts have 0% fiber:

Parkway Local School District
Celina City Schools
Fort Recovery Local School District
St. Henry Consolidated Local School District

All of the above listed districts have 100% fiber availability and are currently being served on fiber optic service provided by Wabash Mutual Telephone. I would greatly appreciate it if you could correct the map as soon as possible.

I can be reached via email mikeb@wabash.com or by phone at 419-942-1111.

Thank you,
Mike Boley

Subject: Corrections to FCC School Fiber Map for Marion (AR) School District

Categories: Orange Category

Regarding the "FCC E-rate Maps of Fiber Connectivity to Schools and Libraries" located at <http://www.fcc.gov/maps/E-rate-fiber-map>:

Can you help improve the data that drives this map? The Commission has asked for comment to help identify the gap between schools' and libraries' current connectivity and the specific connectivity targets the Commission adopted in its E-Rate Modernization Order. Can you help by providing a district or school name that is not identified? A school's NCES ID (found at <http://nces.ed.gov/ccd/schoolsearch/>)? An individual school's connection technology (e.g., fiber, cable, T-1, wireless) or advertised download speed?

Please submit your comments, which will be included in the public record for WC Docket Number 13-184, to schoolfibermap@fcc.gov. Those e-mailed comments will be used to periodically update this map. All information submitted to that e-mail address, including names and e-mail and street addresses, will be publicly available via the web.

Marion School District is a suburban school district in the metro Memphis TN-AR-MS MSA. The data included in this map are out-of-date.

Marion School District (USAC SLD entity # 139568 / FCC RN 0013004502 / NCES District ID Code 05 09390) has six schools in it. All six schools (100%) share a 1 Gbps, fiber-based metro-area network provided by Comcast Business Communications (SPIN 143003990) funded primarily with e-rate funds on Funding Year 2014-2015 471 # 955098 / FRN 2595139.

For Internet access, all six schools (100%) share a 200 Mbps fiber-based connection to the State of Arkansas network procured jointly by Marion School District (180 Mbps) and the Arkansas Department of Education (ADE) (20 Mbps) on an e-rate application filed on behalf of ADE by the Arkansas Department of Information Services (DIS). The provider is AT&T.

The six schools' NCES information (USAC SLD entity # in parentheses):

School Name: Avondale Elementary School (82732) **NCES School ID:** 050939000680

School Name: Marion Elementary School (82811) **NCES School ID:** 050939000681

School Name: Marion Intermediate School (82813) **NCES School ID:** 050939000130

School Name: Marion Middle School (82814) **NCES School ID:** 050939001428

School Name: Marion Junior High School (82815) **NCES School ID:** 050939000683

School Name: Marion High School (82816) **NCES School ID:** 050939000682

After reviewing the maps we find that a few schools are missing the fiber connections that they have had in place since the 1996 period of time, the schools are:

Verndale Public School #818

411 SW Brown St

Verndale, MN 56481

(218) 445-5184

Verndale has dedicated 2 fibers that they can connect to other area schools and share in the purchasing of Internet bandwidth. Verndale school also has a complete wireless infrastructure.

Menahga Public School #821

216 Aspen Ave SE

Menahga, MN 56464

(218) 564-4141

Menahga has dedicated 2 fibers that they can connect to other area schools and share in the purchasing of Internet bandwidth. Menahga school also has a complete wireless infrastructure.

Please let me know if you have any questions and I would be happy to address them.

Oregon Telephone Corporation has identified the schools in our service territory that have potential connection to fiber and high speed data connections. The following schools along with the respective NCIS ID's have fiber connections available to them:

1. Prairie City School 4110110
2. Dayville School 4104020
3. Grant Union School 4106780
4. Burnt River School 4101740
5. Harper School 4106120

Please update the map accordingly. If you should require further information, please don't hesitate to contact me at 541-932-4411 or at dkluser@ortleco.net

Thanks for your attention to this matter!

Delinda Kluser
Vice-Pres, General Manager
Oregon Telephone Corporation

To: SchoolFiberMap
Subject: Schools with fiber access

To Whom it May Concern,

Here are some schools in Minnesota with fiber access, provided by Paul Bunyan Communications:

Bemidji Schools (All District 31 schools)
Littlefork-Big Falls School
Blackduck School
Deer River School
Grand Rapids Schools (High School, Middle School, Cohasset Elementary, Southwest Elementary, Forest Lake Elementary)
Greenway Schools (High School, Middle School, Little School)
Hermantown Schools
Indus School
International Falls School
Keewatin Elementary School
Kelliher School
Nashwauk High School
Northome School
Red Lake Schools (High School/Middle School, Red Lake Elementary, & Ponemah Elementary)

I'm not sure if some of these are in the same school district. It should give you a better idea of how many students have access to a fiber network.

If you have any questions feel free to contact me.

Thank you,

Re: Notice of *Ex Parte* in WC Docket No. 13-184
E-rate Modernization
Telepak Networks, Inc. d/b/a C Spire Fiber

Madam Secretary:

In response to questions from Federal Communications Commission staff during the April 21, 2014, ex parte presentation of Telepak Networks, Inc. d/b/a C Spire Fiber (“C Spire” or “C Spire Fiber”),¹ we hereby submit the following information for the record in the above captioned proceeding.

Schools connected to fiber offered by C Spire Fiber

The following school districts or library systems in Mississippi are connected to fiber offered by C Spire for either Internet Access or Wide Area Network (“WAN”) services:

SCHOOL DISTRICTS

Benton County School District	Forrest County School District
Booneville School District	Hattiesburg School District
Clarksdale Municipal School District	Hinds County School District
Clinton Public School District	Holly Springs School District
Columbia School District	Jackson Public School District
Corinth School District	Lee County School District
DeSoto County School District	Marion County School District

¹ See Letter from Jeffrey Mitchell, Counsel for C Spire Fiber, to Marlene Dortch, Secretary, FCC, WC Docket No. 13-184 (Apr. 23, 2014); see also *Wireline Competition Bureau Seeks Focused Comment on E-Rate Modernization*, Public Notice, WC Docket No. 13-184, DA 14-308 (Mar. 6, 2014) (“PN”); *In the Matter of Modernizing the E-rate Program for Schools and Libraries*, WC Docket 13-184, Notice of Proposed Rulemaking, FCC 13-100.

Hon. Marlene H. Dortch

Rates for Internet Access and WAN Circuits Offered to Mississippi Schools

As a general response, C Spire Fiber does not offer standardized or postalized pricing for either Internet access or WAN circuits. Both Internet access and WAN installations involve variable costs (*e.g.*, new construction) based on proximity to our facilities and other location-specific factors. C Spire typically recovers these variable costs through monthly rates over the course of a multi-year contract.

Rates Offered for Managed Wi-Fi

C Spire Fiber's recent but growing experience deploying managed Wi-Fi solutions for school districts suggest that the \$21 per student/teacher per year price referenced by Mr. Will Goodman, Director of Technology, Mountain Home School District, Idaho, at the E-rate Modernization workshop on May 6, 2014, is a reasonable average price.²

Sincerely,

Jeffrey A. Mitchell
Counsel for Telepak Networks, Inc.
d/b/a C Spire Fiber

² A recent analysis of C Spire Fiber's 1:1 hosted Wi-Fi deployments and price quotes provided to potential new customers reflects a per student/teacher price ranging slightly below, to significantly above the Idaho managed Wi-Fi price point. C Spire's price variability is due principally to variations in the cost of pulling internal cables or in the number of access points (*i.e.*, classrooms). See also Letter from John Windhausen Jr., on behalf of Education Networks of America ("ENA"), to Marlene Dortch, Secretary, FCC, WC Docket No. 13-184 (May 6, 2014) (ENA is the service provider for Idaho schools and also referenced the \$21 per student/teacher per year price).

In reviewing the E-Rate map we have found our rural Minnesota communities information are not represented accurately. Our company, Consolidated Telephone Company dba CTC, provides fiber connection capable of 100M+ direct to the following community schools:

Brainerd, MN

Brainerd ISD 181= 300M

Lake Region Christian = 15M

Oak Street Christian = 5M

Brainerd Public Library=provided by *OET with CTC providing their last mile capable of 100M

Little Falls, MN

Little Falls ISD 482= 50M

Pillager, MN

Pillager ISD 116= 50M

Pillager Area Charter = 15M

Crosby, MN

Crosby-Ironton ISD 182= 10M

-

Motley, MN

Motley ISD 2170 =provided by *OET with CTC providing their last mile capable of 100M

-

Outing, MN

Outing Volunteer Library= availability of 100M currently has no high speed.

We do not find any other libraries in these communities subscribing to our service even though we have fiber available to their locations.

The following schools and libraries also have services through *Office of Enterprise Technology (OET) with Charter providing their last mile for primary high speed

internet service however we are unsure of the actual speeds provided however they have the availability through CTC for 100M+:

Central Lakes College-Brainerd
Crosby-Ironton ISD 182

Good morning, E-Rate Data Team!

Thank you so much for your email, as this totally explains the discrepancies. So here is clarification on our schools, taking into account their buildings:

LaCrosse USD 395 –FTTP to the high school and middle school, with the elementary school connected via a fiber WAN.

Macksville USD 351 – FTTP to the elementary school, middle school, and high school.

Ness City USD 303 – FTTP to the elementary school, middle school, and high school.

Otis-Bison USD 403 – FTTP to the elementary school, middle school, and high school.

Western Plains USD 106 – FTTP to the elementary school, middle school, and high school. Buildings are located in both Ransom and Bazine.

Let me know if you have any questions on this, and have a great week!

Kara

To: 'Kara Jecha'
Subject: RE: School Fiber Map Comments - Kansas

Hi Kara,

We took a look at what's happening in the schools mentioned below. For example, Lacrosse School District has 3 schools and we have the high school marked as having fiber based the NCES school ID below. The elementary and middle schools are marked as no fiber and unknown, respectively.

Lacrosse School District (ID: 2008220)

- Elementary School (ID: 200822000889)
- Middle School (ID: 200822000891)
- High School (ID: 200822000890)

The map rolls up the individual school statuses to the district level, so based on the above data, the Lacrosse School District is 33% served. Does Golden Belt provide fiber to each of the three schools in the district (i.e., each school is served with FTTP or one school has fiber Internet access and the others are connected via fiber WAN)? If so, please let us know about this one and the other districts.

Thank you,
E-rate Data Team

Subject: FW: School Fiber Map Comments - Kansas

Dear E-Rate Data Team:

After reviewing the updated Fiber Map, there are some discrepancies between the information we submitted 8/21/14 (attached) and the figures on the map. All of the schools we serve are 100% connected by fiber, but only 4 of our schools show as 100% fiber connected on the updated map. Here is a breakdown of the needed corrections:

LaCrosse USD 395, NCES ID 200822000890 – 100% Fiber Access, not 32.8%
Macksville USD 351, NCES ID 200906000713 – 100% Fiber Access, not 33.3%
Ness City USD 303, NCES ID 200993000500 – 100% Fiber Access, not 50.3%
Otis-Bison USD 403, NCES ID 200402000923 – 100% Fiber Access, not 50%
Western Plains USD 106, NCES ID 200002000498 (Ransom) and NCES ID 200002000501 (Bazine) – 100% Fiber Access, not 77.8%

We are hopeful you can still include these updates in the Fiber Map. Please don't hesitate to call me at 785-372-4236 or email kjecha@gbta.net for further information or clarification.

Thank you!

Kara

Subject: E-Rate Modernization

Categories: Blue Category

TEC has fiber networks across Mississippi, Tennessee, and Alabama, the following information is provided to assist the FCC in E-Rate Modernization proceeding.

In Mississippi our companies provide fiber in Jasper and Jones County. We provide fiber to the following schools:

- Bay Springs High School , 510 Hwy 18 Bay Springs, MS 39422
- Bay Springs Middle School, 124 Edmund King Dr. Bay Springs, MS 39422
- Bay Springs Elementary School, 510 Hwy 18 Bay Springs, MS 39422
- West Jones High School, 254 Springhill Rd Laurel, MS 39443
- West Jones Elementary School, 5652 Hwy 84 West, Laurel, MS 39443

In Tennessee our companies provide fiber to Dyer, Henry, and Houston County.

- Henry Elementary School, 937 Pioneer Rd Henry, TN 38231
- Friendship Elementary School, 6229 Hwy 189 Friendship, TN 38034

In Alabama our companies provide fiber to Randolph and Chambers County.

- Handley Middle School, 251 Gilham Rd Roanoke, AL, 36274
- Cherokee High School, 850 High School Dr. Cherokee, AL, 35616

If more information is required to complete step one of the process please feel free to call or e-mail me.

Respectfully,
Kenith Crose

Modernizing the E-rate Program for)
Schools and Libraries)

WC Docket No. 13-184

COMMENTS OF INTERIOR TELEPHONE COMPANY

Interior Telephone Company (Interior) is responding to the FCC's recent invitation for community engagement to refine the FCC E-rate Maps of Fiber Connectivity to Schools and Libraries and to help identify the gap between schools' and libraries' current connectivity and the specific connectivity targets the Commission adopted in its E-Rate Modernization Order.

Interior would like to update the record to show that Seward Middle School in the Kenai Peninsula Borough School District, NCES ID 20039000437, current connection technology is provisioned via fiber.

Interior strives to develop its facilities and bring fiber connectivity to the communities it serves and will continue to provide updates as needed to help in this matter.
